HEALTHY PLANTS FOR HEALTHY PEOPLE:

CLASS 5ctg a.s. 2017-18

Teachers involved: Mrs. Vergombello, Mrs. Cereda

Members' countries: Italy, Turkey, Serbia, Romania

It is a project that deals with the study, research, cultivation and diffusion of plants which can be useful and healthy in many different sectors and for different reasons.
The idea is to promote the knowledge of plants power, and to promote awareness towards remedies from plants, including herbal teas, that can be used by people, highlighting the use of different local plants for different purposes in every country or region.
